Title 5 Official Inspection Form

Subsurface Sewage Disposal System Form - Not for Voluntary Assessments

Owner
information is
required for
every page.

Property Address

Owner's Name

City/Town

State

Zip Code

Date of Inspection

Inspection results must be submitted on this form. Inspection forms may not be altered in any way. Please see completeness checklist at the end of the form.

Important:
When filling
out forms on
the computer,
use only the
tab key to
move your
cursor - do not
use the return
key.

A. General Information

1. Inspector:

Name of Inspector

Company Name

Company Address

City/Town

State

Zip Code

Telephone Number

License Number

B. Certification

I certify that I have personally inspected the sewage disposal system at this address and that the information reported below is true, accurate and complete as of the time of the inspection. The inspection was performed based on my training and experience in the proper function and maintenance of on site sewage disposal systems. **I am a DEP approved system inspector pursuant to Section 15.340 of Title 5 (310 CMR 15.000).** The system:

☐ Passes

☐ Conditionally Passes

☐ Fails

☐ Needs Further Evaluation by the Local Approving Authority

Inspector's Signature

Date

The system inspector shall submit a copy of this inspection report to the Approving Authority (Board of Health or DEP) within 30 days of completing this inspection. If the system is a shared system or has a design flow of 10,000 gpd or greater, the inspector and the system owner shall submit the report to the appropriate regional office of the DEP. The original should be sent to the system owner and copies sent to the buyer, if applicable, and the approving authority.

******This report only describes conditions at the time of inspection and under the conditions of use at that time. This inspection does not address how the system will perform in the future under the same or different conditions of use.**

Zip Code

Date of Inspection

B. Certification (cont.)

Inspection Summary: Check A,B,C,D or E / **always** complete all of Section D

A) System Passes:

- ☐ I have not found any information which indicates that any of the failure criteria described in 310 CMR 15.303 or in 310 CMR 15.304 exist. Any failure criteria not evaluated are indicated below.

Comments:

B) System Conditionally Passes:

- ☐ One or more system components as described in the "Conditional Pass" section need to be replaced or repaired. The system, upon completion of the replacement or repair, as approved by the Board of Health, will pass.

Check the box for "yes", "no" or "not determined" (Y, N, ND) for the following statements. If "not determined," please explain.

The septic tank is metal and over 20 years old* **or** the septic tank (whether metal or not) is structurally unsound, exhibits substantial infiltration or exfiltration or tank failure is imminent. System will pass inspection if the existing tank is replaced with a complying septic tank as approved by the Board of Health.

* A metal septic tank will pass inspection if it is structurally sound, not leaking and if a Certificate of Compliance indicating that the tank is less than 20 years old is available.

☐ Y ☐ N ☐ ND (Explain below):

Title 5 Official Inspection Form

Property Address

City/Town

State

Zip Code

Date of Inspection

B. Certification (cont.)

- ☐ Pump Chamber pumps/alarms not operational. System will pass with Board of Health approval if pumps/alarms are repaired.

B) System Conditionally Passes (cont.):

- ☐ Observation of sewage backup or break out or high static water level in the distribution box due to broken or obstructed pipe(s) or due to a broken, settled or uneven distribution box. System will pass inspection if (with approval of Board of Health):

- | | | | |
|--|----------------------------|----------------------------|--|
| <input type="checkbox"/> broken pipe(s) are replaced | <input type="checkbox"/> Y | <input type="checkbox"/> N | <input type="checkbox"/> ND (Explain below): |
| <input type="checkbox"/> obstruction is removed | <input type="checkbox"/> Y | <input type="checkbox"/> N | <input type="checkbox"/> ND (Explain below): |
| <input type="checkbox"/> distribution box is leveled or replaced | <input type="checkbox"/> Y | <input type="checkbox"/> N | <input type="checkbox"/> ND (Explain below): |

- ☐ The system required pumping more than 4 times a year due to broken or obstructed pipe(s). The system will pass inspection if (with approval of the Board of Health):

- | | | | |
|--|----------------------------|----------------------------|--|
| <input type="checkbox"/> broken pipe(s) are replaced | <input type="checkbox"/> Y | <input type="checkbox"/> N | <input type="checkbox"/> ND (Explain below): |
| <input type="checkbox"/> obstruction is removed | <input type="checkbox"/> Y | <input type="checkbox"/> N | <input type="checkbox"/> ND (Explain below): |

C) Further Evaluation is Required by the Board of Health:

- ☐ Conditions exist which require further evaluation by the Board of Health in order to determine if the system is failing to protect public health, safety or the environment.

1. System will pass unless Board of Health determines in accordance with 310 CMR 15.303(1)(b) that the system is not functioning in a manner which will protect public

Date of Inspection _____

City/Town _____

☐ Cesspool or privy is within 50 feet of a surface water

☐ Cesspool or privy is within 50 feet of a bordering vegetated wetland or a salt marsh

B. Certification (cont.)

2. System will fail unless the Board of Health (and Public Water Supplier, if any) determines that the system is functioning in a manner that protects the public health, safety and environment:

☐ The system has a septic tank and soil absorption system (SAS) and the SAS is within 100 feet of a surface water supply or tributary to a surface water supply.

☐ The system has a septic tank and SAS and the SAS is within a Zone 1 of a public water supply.

☐ The system has a septic tank and SAS and the SAS is within 50 feet of a private water supply well.

☐ The system has a septic tank and SAS and the SAS is less than 100 feet but 50 feet or more from a private water supply well**.

Method used to determine
distance: _____

** This system passes if the well water analysis, performed at a DEP certified laboratory, for fecal coliform bacteria indicates absent and the presence of ammonia nitrogen and nitrate nitrogen is equal to or less than 5 ppm, provided that no other failure criteria are triggered. A copy of the analysis must be attached to this form.

3. Other:

D) System Failure Criteria Applicable to All Systems:

You **must** indicate "Yes" or "No" to each of the following for

all inspections:

Yes No

Title 5 Official Inspection Form

Date of Inspection _____

- | | | |
|--------------------------|--------------------------|---|
| <input type="checkbox"/> | <input type="checkbox"/> | Backup of sewage into facility or system component due to overloaded or clogged SAS or cesspool |
| <input type="checkbox"/> | <input type="checkbox"/> | Discharge or ponding of effluent to the surface of the ground or surface waters due to an overloaded or clogged SAS or cesspool |
| <input type="checkbox"/> | <input type="checkbox"/> | Static liquid level in the distribution box above outlet invert due to an overloaded or clogged SAS or cesspool |
| <input type="checkbox"/> | <input type="checkbox"/> | Liquid depth in cesspool is less than 6" below invert or available volume is less than ½ day flow |

B. Certification (cont.)

Yes No

- | | | |
|--------------------------|--------------------------|---|
| <input type="checkbox"/> | <input type="checkbox"/> | Required pumping more than 4 times in the last year NOT due to clogged or obstructed pipe(s). Number of times pumped: ____. |
| <input type="checkbox"/> | <input type="checkbox"/> | Any portion of the SAS, cesspool or privy is below high ground water elevation. |
| <input type="checkbox"/> | <input type="checkbox"/> | Any portion of cesspool or privy is within 100 feet of a surface water supply or tributary to a surface water supply. |
| <input type="checkbox"/> | <input type="checkbox"/> | Any portion of a cesspool or privy is within a Zone 1 of a public well. |
| <input type="checkbox"/> | <input type="checkbox"/> | Any portion of a cesspool or privy is within 50 feet of a private water supply well. |
| <input type="checkbox"/> | <input type="checkbox"/> | Any portion of a cesspool or privy is less than 100 feet but greater than 50 feet from a private water supply well with no acceptable water quality analysis. [This system passes if the well water analysis, performed at a DEP certified laboratory, for fecal coliform bacteria indicates absent and the presence of ammonia nitrogen and nitrate nitrogen is equal to or less than 5 ppm, provided that no other failure criteria are triggered. A copy of the analysis and chain of custody must be attached to this form.] |
| <input type="checkbox"/> | <input type="checkbox"/> | The system is a cesspool serving a facility with a design flow of 2000gpd-10,000gpd. |
| <input type="checkbox"/> | <input type="checkbox"/> | The system fails. I have determined that one or more of the above failure criteria exist as described in 310 CMR 15.303, therefore the system fails. The system owner should contact the Board of Health to determine what will be necessary to correct the failure. |

E) Large Systems: To be considered a large system the system must serve a facility with a design flow of 10,000 gpd to 15,000 gpd.

For large systems, you must indicate either "yes" or "no" to each of the following, in addition to the questions in Section D.

Yes No

- | | | |
|--------------------------|--------------------------|--|
| <input type="checkbox"/> | <input type="checkbox"/> | the system is within 400 feet of a surface drinking water supply |
|--------------------------|--------------------------|--|

Title 5 Official Inspection Form

Subsurface Sewage Disposal System Form - Not for Voluntary Assessments

Owner
information is

every page.

Property Address

Owner's Name

City/Town

State

Zip Code

Date of Inspection

- ☐ ☐ the system is within 200 feet of a tributary to a surface drinking water supply
- ☐ ☐ the system is located in a nitrogen sensitive area (Interim Wellhead Protection Area - IWPA) or a mapped Zone II of a public water supply well

If you have answered "yes" to any question in Section E the system is considered a significant threat, or answered "yes" in Section D above the large system has failed. The owner or operator of any large system considered a significant threat under Section E or failed under Section D shall upgrade the system in accordance with 310 CMR 15.304. The system owner should contact the appropriate regional office of the Department.

C. Checklist

Check if the following have been done. You **must** indicate "yes" or "no" as to each of the following:

Yes No

- ☐ ☐ Pumping information was provided by the owner, occupant, or Board of Health
- ☐ ☐ Were any of the system components pumped out in the previous two weeks?
- ☐ ☐ Has the system received normal flows in the previous two week period?
- ☐ ☐ Have large volumes of water been introduced to the system recently or as part of this inspection?
- ☐ ☐ Were as built plans of the system obtained and examined? (If they were not available note as N/A)
- ☐ ☐ Was the facility or dwelling inspected for signs of sewage back up?
- ☐ ☐ Was the site inspected for signs of break out?
- ☐ ☐ Were all system components, excluding the SAS, located on site?
- ☐ ☐ Were the septic tank manholes uncovered, opened, and the interior of the tank inspected for the condition of the baffles or tees, material of construction, dimensions, depth of liquid, depth of sludge and depth of scum?
- ☐ ☐ Was the facility owner (and occupants if different from owner) provided with information on the proper maintenance of subsurface sewage disposal
- ☐ ☐ The **size and location of the Soil Absorption System (SAS)** on the site has been determined based on:
- ☐ ☐ Existing information. For example, a plan at the Board of Health.
- ☐ ☐ Determined in the field (if any of the failure criteria related to Part C is at issue approximation of distance is unacceptable) [310 CMR 15.302(5)]
