# **Individual Assessment Exercise**

Work Individually Upon completion please turn in to your instructor

#### "Nice Try" Scene 1

Please take a few moments to think about the scene you just watched.

1) Did the inspector do anything wrong as she began this inspection?

2) How could the inspector have improved the opening interview?

3) Any other thoughts or comments?

## Individual Assessment Exercise

> "Nice Try" Scene 2

Please take a few moments to think about the scene you just watched.

1) What objectionable conditions did you see in this scene?

2) Did the inspector make any mistakes? If so, what?

3) Is there anything else the inspector could have done to make this a better inspection?

> "Nice Try" Scene 4

Please take a few moments to think about the scene you just watched.

1) How could the investigator have improved on her closing interview?

2) Did the inspector make any mistakes? If so, what?

3) Are the following report observations written correctly. If not, how would you improve them? Are there any items you noted in the video that were missed?

Observations:

- 1) Rodent droppings observed in dry goods aisle next to a pallet of flour.
- 2) Cooler temperature observed to be 49 degrees Fahrenheit.

4) For all violations identified, please provide the most appropriate regulation reference that supports the violation from one of the following (your facilitator should provide direction and copies of the regulation to use).

5) Based on what you learned in Module 1, what compliance technique might be used with this firm? What if these conditions were repetitive and progressively growing more severe on each progressive visit?
