

## Lesson design worksheet

|             |                                     |  |
|-------------|-------------------------------------|--|
| Objectives: | What do the students need to learn? | How will you know that they have learned it? |
|             |                                     |  |

|   | Time | Activities | Materials needed |
|---|------|------------|------------------|
| <b>MOTIVATE</b> <ul style="list-style-type: none"> <li>-Warm up!</li> <li>-Review</li> <li>-Create the need for your information</li> <li>-Set the context</li> <li>-Find out what students already know</li> </ul> |      |            |                  |
| <b>INFORM</b> <ul style="list-style-type: none"> <li>-Give them the new material</li> <li>-Define the scope of the new stuff</li> <li>-The “meat”</li> </ul>  |      |            |                  |
| <b>PRACTICE</b> <ul style="list-style-type: none"> <li>-Easy, focused practice first</li> <li>-See if they understand the info.</li> <li>-Manipulate the info</li> </ul>  |      |            |                  |
| <b>APPLY</b> <ul style="list-style-type: none"> <li>-Apply the info to bigger context</li> <li>-Experiment with it</li> <li>-Test it out in new contexts</li> </ul>   |      |            |                  |
